

Hawaii follow-up

Additional eyewitness reports of
October 23, 2020 'great Maui fireball
swarm' satellite reentry

REVIEW DRAFT

JAMES OBERG

jamesoberg@comcast.net

May 20, 2021

Walter Bishop == It's amazing and definitely
seems to be one big craft!!

<https://youtu.be/w9o1HWVjrXU>

Why more?

- More sites accessed, and some sites remained active for months
- Some very revealing back-and-forth discussions
- Massive public fascination with describing the unearthly experience
- Together with report on the Oregon/Washington reentry fireball swarm, these compilations indicate the advent of diminishing returns for the effort to produce repeated reports on new events...

links

- Dec 7, 2020 == My updated analysis of the UFO sightings from the October 24, 2020, Hawaiian Islands event that resulted from the re-entry of satellite 2008-055B [NORAD object #33415]. The report has been expanded to add two witness drawings, a number of new witness descriptions, and additional information on historical precedents of the same type of event:

- http://www.satobs.org/seesat_ref/misc/hawaii_mothership_final2.pdf

- And <http://www.astronautix.com/data/hawaii-mothership-release.pdf>

- =====

ORIGINAL REPORT: Hawaii mothership [oct 24, 2020] -- my nov 12 report of pattern of satellite reentries creating fireball swarms that trigger such perceptions

- http://www.satobs.org/seesat_ref/misc/hawaii_mothership_FINAL_1A.pdf

NASA ALUMNI LEAGUE [JSC, HOUSTON] 4 Feb 2021 2:30 PM, CST

- Where: Zoom Meeting
- **EVENT DETAILS: Jim Oberg** -- My lifelong interest in how the public perceives and misperceives spaceflight has led me down another strange trail. One unexpected spin-off of spaceflight activities is a deeper understanding of human perception of bizarre night sky apparitions -- caused by fireball swarms from reentering satellites. Particularly with large objects such as upper stages, these swarms have been misperceived as lights mounted on large structure of unknown [even non-human] origin. This misidentification effect has been documented for decades with observers from all continents, cultures, professions, and ages. Aside from insights these serendipitous 'blind testings' can give, these experiences also provide insight into the fundamental misunderstandings in the general public about the realities of space flight and the wildly imaginary explanations conjured up to account for these events.

feb 2021 REENTRY FIREBALL SWARMS AS UFOs 55

INTRODUCTORY OVERVIEW

Fireball Swarms from Satellite Reentries -- Astonishing Mass Public Misinterpretations Provide Unexpected Perceptual Lessons

James Oberg
February 4, 2021

jamesoberg@comcast.net

What follows.....

- Compilation of additional comments from witnesses and from viewers of posted videos.

Strategy of exploitation of this compilation

- Seek detailed eyewitness reports – skip forward as desired
- Tolerate occasional accidental repetition of comments
- Note specific mentions of rationale for rejecting reentry fireball swarm explanation based on fundamental flaws in understanding of basic principles of space flight [pinpointing public education failure]
 - Single object with lights of structure, visible hull shape
 - Flight of a fleet of objects keeping deliberate formation
 - Meteors always have tails and these didn't
 - Horizontal controlled flight [NOT 'falling down' is it ***should***]
 - Course changes and speed variations
 - Absence of local warnings indicates unknown origin

<https://www.nationandstate.com/2020/10/26/massive-ufo-flies-over-hawaii-video/>

- Hawaii residents left scratching their heads after UFO sighting **gets explained away** by MSM as rocket booster.
- The **massive UFO appeared to be one large object** and was flying at a **rather slow rate of speed** across the nighttime sky at around 3:28 a.m. Hawaii time [JO: SIC!].
- Twitter user @haynlemon Tweeted: “Yoooo just experienced to most craziest \$hit ever lol YOU BE THE JUDGE.”
- Of course, the media explained away the sighting as a rocket booster

Massive ufo flies over..... 2

- [[October 28, 2020 at 3:57 pm](#)] Dennis G. again, that's makewavess@yahoo.com So the lights were flying like a space craft, It **could not be a rocket launcher** that would move in a straight line and be much smaller, **this was huge**. It came up and **made a left turn in the sky above me**, it then made **another turn to the right** and then **moved upward**, it was being controlled or driven, it was making turns, this was not some static orbit like a rocket launcher. Also **the lights had different brightness, the one leading it was brightest like a cockpit or lead light, a rocket launcher would have all lights the same** it seems. It could not be a space link that has thin slices of light for miles or a meteor, this was **driving laterally** moving rather slowly and evenly. It could only be an alien craft. Any comments are welcome at my email here, especially the man who thinks it was a rocket launcher.

Massive ufo flies over 3

- **Dennis Gregory** [October 28, 2020 at 3:39 pm] == Mike, I saw it coming up from the airport, I live 2 miles up from the airport, **it came right up, turned and cruised close, it was huge.**
- my email makewavess@yahoo.com. I'd like to hear what you saw and send you my description. A UFO how exciting. **Too big and not shaped like some kind of rocket launcher.** I write a column in West Hawaii.
- Mike: 4 of us saw something very similar on Saturday Oct 24, 2020 at around 10:10 pm. The description by John O'Meara doesn't seem congruent with what we saw. There was no indication that this was a large object, just **bunch of glowing star like objects moving in formation.** We saw it in Waikoloa Village and it seemed to be above the Mauna Lani development and it went over our house toward Mauna Kea.

BAFFLE HAWAII RESIDENTS

- <https://earthfrenzyradio.com/strange-unusual/4677-mysterious-lights-in-the-night-sky-baffle-hawaii-residents>
- People on different islands reported that they saw these lights in the sky on Saturday night, Oct. 24, shortly after 10 p.m. We're told since it was traveling east. Residents on the Big Island and Maui probably got a better view.
- "I started videotaping and when they got closer, I start freaking out because I'm like, 'Oh, what in the world is this?'" said Molokai resident Kuuip Kanawaliwali. "We actually didn't even know what to think. We didn't know what it was, where it came from," said Sheri English who also lives on Molokai. "It just appeared. It was actually very eerie, eerie feeling." That was probably what many thought when they saw these mysterious bright lights in the night sky.
- But experts from the Mauna Kea observatories offer a simple explanation of what they suspect. "So in all likelihood, what they saw last night was the reentry of a rocket booster that was from a rocket that was launched in 2008. So a Chinese rocket that was boosting up a communication satellite for Venezuela," said Chief Scientist John O'Meara of the W. M. Keck Observatory.
- [more]

BAFFLE HAWAII RESIDENTS 2

- It's **likely** as the years went by, the orbit of the booster eventually decayed. Astronomers **found a map** of the object's flight path which was near the Hawaiian Islands. The map also provides information predicting when the rocket booster would reenter.
- "So we can't be 100% certain because we don't have any of the pieces of the debris. But the pattern of the lights that we saw in our timelapse combined with this map," said Canada France Hawaii Telescope Strategic Communications Director Mary Beth Laychak. "This flight path and the precision at which all of these companies are able to estimate where their objects will enter and how they'll break up is what really leads us to believe that this was this Venesat-1 reentering the atmosphere."
- jenn {Monday 8th Feb 2021} === you can't be 100 percent certain **because you don't have any samples of the debris** . and ACCORDING TO MY OWN OBSERVATION , it appears that **the lights were a blinking sort of technology rather than items burning up** . I am not a an educated holier than thou probably single living in a basement scientist however **i do have keen observation capabilities** .
- P Ball {Monday 8th Feb 2021} == Space debris? Really? Look **how slow its travelling** and how long they are filming it. Anything falling from orbit **would be angled down** and travelling very fast and **burn up soon** too. **That is a bunch of objects moving in a level path at a steady speed.**

BAFFLE HAWAII RESIDENTS 3

- Pattie Simmons {Monday 8th Feb 2021} == This is truly **the most absurd explanation** I've seen yet. Honestly! **It slows down, speeds up, changes direction, sits relatively motionless** in the sky and SOMEHOW we are all supposed to believe it was a piece of **FALLING** space junk? *You folks need a new excuse book! The old "lies to Tell Idiots" edition is showing it's age.* PLEASE STOP treating the public like a group of **bib-wearing imbeciles**. We really CAN tell the difference between a piece of free-falling space debris and **an intelligently operated vehicle!**
- Dirk Becker {Monday 8th Feb 2021} == Unbelievable that THEY still try to tell us the **most ridiculous explanation**.. if it was the debris from some rocket, the pieces would enter the atmosphere in **a much higher speed**, the pieces wouldn't burn out in the way the lights are doing and also **would leave a tail** from the melt down. I'm not saying these are extraterrestrial, I'm more than convinced that humanity has the technology of *antigravity levitation* and much more.. where we have it from is another story but **it's time to stand up against THESE so called scientists taking us for ignorant.**

10/24/20 <http://www.nuforc.org/> NATIONAL UFO REPORTING CENTER

23:00	Waikiki	Triangle	10 minutes	Shaped like a wide V or triangle w g F lashing lights and b
22:02	Kahuku	Triangle	57 seconds	Unusual lights floating above.
22:01	Honolulu	Formation	21 seconds	Shark formation floats across the pacific islands of Hawaii
22:01	Kona	Cigar	Minutes	Video of cigar shaped UFO ship in Kona
22:00	Kula	Formation	20 seconds	A group of light in the shape of a gigantic ship floating by in space upper Kula.
22:00	Honolulu	Rectangle	2 minutes	floating scaffolding in T-shape spotted above ocean /Diamondhead lookout
21:00	Mokuleia	Other	1-2 minutes	Cluster of Stars Shaped Like Plane. ((Starlink satellites?

Nuforc

- 21:00 Mokuleia == Cluster of Stars Shaped Like Plane -- Last night at Mokuleia Beach, a cluster of lights shaped in a form that almost resembled an airplane (**the lights forming a long main body and two wings**) moved slowly and consistently across the sky. I estimate 25-30 lights (maybe there were more, but not less), and as it disappeared from view over the ocean, it left **a faint trail of light** where it had been. The trail of light (like a fuzzy white glow that the cluster had painted through the sky as it moved) lasted about another minute before it faded too.
- 22:00 Honolulu == Above Leahi/Diamond Head lookout spotted many lights low in the sky. First thought was airplane, but it was very low and much, **much larger than a plane. Shape was rectangular**, kind of like floating scaffolding in T-shape **with lights on borders**. It was moving **slowly**.. floating past.. hardly any sound. After it was out of sight a plane appearing coming from Maui direction.. this confirmed what I saw was not a plane cause it was very different.. Also giant white round cloud was hovering above..

nuforc

- 22:00 Kula == I sat up in Kula overlooking Kihei and the ocean from a distance when **a group of lights** presented from the skies seemingly above or around Kihei they quickly moved there was upcountry Maui and upon getting closer I could see there were many. **Easily 100**. I couldn't tell **if it was one gigantic ship or 100 ships flying in unison**. I could tell the **ship(s) could cloak as it was wavering** in this way. It made no sound. As they or it went over the house I hurried to the back of the house and saw it continue to go up the volcano. It left a magnificence bean/trail behind it. *Life changing and not my first time seeing UFO's up here but this was beyond imagination.*
- 22:01 Kona == Sitting out on the lanai and I thought it was a meteor shower but the cluster of lights kept getting closer. The ship was traveling **very low, too low to be an airplane** and did not have colored port and star port lights, only clear. This ship made no noise as it was passing by. It also left **a trail of exhaust like "gas."** The shape seemed to be **like a cigar** / tube and probably the size of a medium sized airplane (without wings)

nuforc

- Honolulu 22:01 == **Shark formation** floats across the pacific islands of Hawaii. Somebody says what is that and I look up. Cloudless still night. First I fix on the planet Venus which was directly above and then I notice stars moving across my way, from right to left. I shout those are fuc4ing ufos! And attempt to film. Seeing with my eyes and rewatching a recording are two different things. A witness beside me **said the formation looked invisible and that the cloaking reminded him of the invisibility** in the game Halo. It was **immense and holds a shape that looked like a shark**. Orbs were different diameters. Some trailing exhaust. Some blinking. One was flashing like on fire and it's flame was reflecting off of itself. I've seen other videos of the sighting now so I'm definitely mixing my experience from what many on the island saw. There's a report that space debris expected on this day however it was for a different time and in the Atlantic not the Pacific. "CZ-3B ROCKET BODY (ID 33415)"

nuforc

- Kahuku 22:02 == Unusual lights floating above. While leaving work site, I noticed some unusual lights above the mountains heading in my direction, it was **shaped like a large plane, more triangular shape** to it though. It moved slow, zero sound to it, **some big lights outlined the shape** while smaller lights twinkled throughout its flight. It was a bit scary.
- Waikiki 23:00 == Shaped like **a wide V or triangle** w g Flashing lights and bluish tint. Hovering moving slowly with no noise only lights reports made from all over Oahu hawaii. [link to **Tom George** facebook entry:]
- <https://www.facebook.com/523634054329414/posts/5188298421196264/?vh=e&d=n>
 - Win Castillo == Saw it too last night Waikele area. I told my wife that couldn't be Elon because he has a trail or strings of lights this one however is in a cluster.
 - Tommy Zoeller == We saw this last night at 10 PM!! **Was right over the buildings** downtown Honolulu!! **Was SO CLOSE**, it could not be satellites! It completely blew our mind.
 - YamaShita == It was seen on Maui too!
 - John francis rapoza == wassup bro. I seen um Kahului Airport. Look **like a giant plane** or something
 - Sherry Armstrong == Looks like **a conventional aircraft with cabin lights on.**
 - Alma Bayomi == **It had a form** and moved quickly through the air. Go home ET.

UFO? Meteor? — Anyone else see these mysterious lights floating around Oahu last night? // October 25, 2020

Tom George // TV Anchor / Reporter for KITV 4

- <https://www.facebook.com/523634054329414/posts/5188298421196264/?v=1&e&d=n>
- **Luis Malave** == Triangular shape UFO
- **Win Castillo** == Saw it to last night Waikele area. I told my wife that couldn't be Elon because he has a trail or strings of lights **this one however is in a cluster.**
- **Terry Pualoa** == What was that?? That's all we need right now, a damn alien invasion!!!! Can somebody tell the aliens **2020 is canceled** try come back next year.
- **Andrew Pagan** == they aren't even hiding no more. **Straight up flying all over the planet** and there are about 4 races that's affecting earth this time in history. its unfolding this year. They want everyone to know about them. its gonna shake this planet up.
- **Rosalinda M. Chavez** == Wow I thought **I would be the only one** to see this thank you for your post.
- **Alma Bayomi** == It had a form and moved quickly through the air. Go home ET.

Tom George #2 of 3

- **Jaysen Gomes** == it ain't no meteor it was moving slowly and they don't move like that why cant people accept its a UFO lol
- **Urworst Nitemare** == Looked like a slowly moving shooting star but larger.
- **Sherry Armstrong** == Looks like a conventional aircraft with cabin lights on. BTW how close are you to the airport?
- **Arlene Sarte** = that's what made it strange. It was the size of a regular aircraft.
- **Bj-Leialoha N Keahi-Javinev**== That looks nothing close to a meteor shower. Definitely something strange. **It's not satellites either. They move too close to each other to be satellites too.**
- **Kev Mac** == I wonder how come all ufo videos **no can see the outline of the aircraft even though get plenty lights.** But when you see one plane or helicopter you can see the outline. Weird
- **Almut marion** == **different frequency** out brain is not used to.
- **Danielle Theresa Battisti** == Interesting that our skies are **not being watched!** No one knows...even " experts"
- **Raine Kush** == Why are people calling it lights ??? **There was a shape ... an outline .. it was a flying ship with lights** . Or plane whatever . I was up real high so I seen it closer ... mmmm hmmm ... just "lights" okaaaaay

Tom George #3 of 3

- **Ron Hashiro** = There are reports of a satellite recently observed last night around 10 pm. This is the likely candidate [snip]
- **Tommy Zoeller** == **was SO LOW.. right above the buildings downtown!!** Could not possibly be satellites that low in the atmosphere and was not rockets propelling satellites anywhere
- **Dino Strong** == Dat lights was crazy last night...it's strange, no fighter jets responded to those lights last night. Usually, if there's something in the air unidentifiable, military would've have had planes in the skies quick....for me , it was no shower of falling rocks from space n it was no satellite.....it was something though.....UFO's maybe....lol
- John Francis Rapoza == wassup bro. I seen um Kahului Airport. **Look like a giant plane** or something
- **Kev Mac** = I wonder howcome all ufo videos no can see the outline of the aircraft even though get plenty lights. But when you see one plane or helicopter you can see the outline. Weird
- **Almut Marion** == different frequency out brain is not used to
- **Clinton Kealoha** == My friend took this shot in waiehu in Wailuku and I saw **it flew right over my house in close view** with lots of lights and there were a faded white smoke tail like in the back. I thought it was a plane but it's not because there was no sound. Tap the picture to blow up close you could actually see it's a huge rock like, like a meteor.

- **Rillington** == It's being described as a satellite reentry. Remember any official explanation of the Phoenix Lights was that it was flares, dropped from a plane. They certainly **seem to move incredibly uniformly horizontally**. I've seen two satellite reentry events and they didn't look like that. People report seeing **a definite shape, a craft like a plane**. Who knows?
- Starseed_1111 == Here's what a satellite reentry looks like [JO: Hayabusa interplanetary reentry] <https://youtu.be/HUSZyu6O9wg> you're right, **it looks nothing like that**.
- Rillington == Right. The two I saw had **distinctive tails** and almost visible debris at times. Like something burning up in an atmosphere. As opposed to **gliding level**.
- Thelakeshow1990 == Wow, thanks for this video. The videos in hawaii look absolutely nothing like these you posted. **This looks like 1 big craft with a bunch of lights**.... As i read the comments i understand the scepticism. Looks like starlink and/or looks like the satellite reentry. But when i watch the videos, **i 100% feel like im looking at a "mothership"**. Why are all the lights the **same distance** away from each other the whole time. And i feel like **you can see an outline**, and something between all the lights. Like its **one big body**. Why are the lights **blinking**? If it was a satellite reentry, wouldn't all the debris have **a tail**? And i dont understand how a heated up piece of debris **would blink** the way those lights are blinking.

Mass UFO Sighting HAWAII 2

- Minneanimal == Cool vid. I do see some similarities around the 1:30 mark when it starts to fully burn up. This would match with witness accounts of **it being low flying**. Also I wonder how much the viewing and vs the entry and could change the appearance of streaks to “lights”. However, how anyone would miss the initial entry into atmosphere when it’s that bright is beyond me. If that footage exists I would say it’s likely debris at end of life. Very interesting either way!
- Karenrollerskates == Insane it looks like **a smaller version of the Phoenix lights**
- Tamachala == Just watched "Capturing the Light" on Amazon Prime and these look like the ufos in the videos. Recommend watching this for another perspective on aliens!
- GraphicsMonster == I saw people commenting on youtube saying they saw the exact same thing in Texas and New York city. Maybe by any chance, **it is on a tour or maybe night patrolling**. I just don't wanna sound too crazy....
- Birdguy1000 == I think any ufo with lights is simply never going to be extraterrestrial.
- ChooBoy50 == The **most plausible reason** I’ve heard is that they’re not lights **but what their propulsion systems emit**.

Mass UFO Sighting HAWAII 3

- MysticalMindTribe == Witnesses are coming forward saying it was passing **overhead at a low altitude**... Quote from witness Gretchen Watson after seeing video - "This same object passed over our coffee farm in Holualoa (Kona side) at 10pm on 10/24/2020. It was heading toward Mt. Hualalai to the Hilo side of the island. It flew **very low over us**, very quiet and left a white haze/tail for several minutes after passing over."... Hi. Yes, it's certainly been quite a storm of controversy, especially as some local residents in Maui, Oahu, and Hawaii swear that what they saw was **flying low altitude**, and **they could make out a structured single craft**. A lot of coincidental things happened on the same day, and we at PS think there might have been **multiple events** occurring at the same time. We are still looking into it. Thanks for comment.... So, if you go and look at the comments thread on the video, some are very animated for sure, from residents there, disputing the Chinese rocket body hypothesis - all makes for an interesting read !! Link - <https://www.youtube.com/watch?v=w9o1HWVjrXU>

Mass UFO Sighting HAWAII 4

- Mr-Raspberryjam == That makes sense to me, whatever method they use to fly and manipulate gravity **must be very energy intensive**, light as a byproduct seems plausible. Also some UFOs seem to be pure light and some seem to be physical objects with light emitting from them, anyone have some input on that? My guess is there are many forms of ETs interacting with Earth and we see different objects depending on the ET origin itself.
- Ppadge == Light is radiation created by perturbations in quantum fields. ***UFO's utilize high frequency rotation and vibration, creating multiple fields that are superposed over each other and vibrating at the same frequency to create a gravitational wave.*** The "exhaust" from this is radiation, in the form of light.
- Koebelin == Their standard models probably have lights, they just didn't bother sending super stealthy versions because they figure slow disclosure is the best policy, just enough hints so we aren't completely surprised later.
- MacaManap == Thinking about it – the lights may not show signs of trails like other reentering of satellites f.e. – but as it is often discussed, if existing, any kind of crafts would not move in an orbital way of entering the atmosphere, but more like have gravitational like propulsion system. So thinking this is something else than man made stuff reentering the atmosphere kind of debunks itself in tons of other chapters. Meh.

Platinum Punk 444 == I was SHOCKED when my friend Jackie and I suddenly saw **this mother ship go above our heads** in Honolulu, Hawaii 10/24/2020 heading North. **This sucker was HUGE!!!!** I panicked and only recorded 9 seconds because it was moving fast with no sound so I had to slow the video and adjust the light and contrast etc. 2020 is just delivering weirdness every single day!!! Jesus... I am still in shock and buying a better equipment tomorrow ASAP. Something is going on.

- <https://youtu.be/h1y2QmjrgWE>

punk

- Platinum Punk 444 == I saw the same on Oahu. **It was MASSIVE**. I posted the video on my channel. Dude, i am still blown away.... . Im just sorry i panicked and didnt get a better shot
- Diego Gutierrez == I was camping on Waipio valley on the big island. It lasted like a minute or 2. I had enough time to decide to pull my phone out, record, realize you couldn't see anything on the video, and then keep watching it. It looked like a bunch of **independent spaceships** entering the atmosphere and then slowing down and descending far into the ocean
- Karl Bonenberger == Maui Now YT channel has a decent shot of it.. **Looked gigantic..**
- xJDlst * == This not the star link train?
- Platinum Punk 444 == No. It was HUGE, **long like a shape of a giant whale** in the sky and **we could see its outline with the naked eye**. All of our neighbors saw it. They posted their video on YT as well. Go search...

UFO Mothership spotted over Hawaii!! What else is going to happen?? ==
Super Trump 2020 == https://youtu.be/K2pP4Ddf2_Q

- Super Trump 2020 == I believe is a Us airforce **Space force Ship**. I believe there are no aliens. Please Subscribe if u haven't and please share my videos! Thank you!! I saw lights in the sky!!!
- Joshua Bratcher == I really believe it's just the SpaceX satellite system. Or maybe an **undisclosed earthly aircraft**. It seems silly to me to think aliens would bother to put lights on their crafts.
- wesley Cornelius == Its not starlink at all look up the new videos uploaded on youtube an hour ago **its a TRIANGLE the size of an aircraft carrier**....search maui ufo
- Ghosts That Hunt Back TV == Major UFO sighting over Hawaii last night. If you look closely **you can see an outline of a triangle**.
- Curtis == Need Some filters put to this Video . To see if We can **get a Shape to that Object**, It Is something there . I Say. <https://youtu.be/OHVzuAcWYlg>
- Jeffrey Neubauer == It flew silently and slowly over waikoloa at 10:01 or 10:02 PM. **Moving Northwest** towards waimea/mauna kea..... Holy \$hit you got a video of it!. I live in waikoloa hawaii and witnessed it flying over my neighbors house. I just finished writing a detailed report on the MUFON website.

Jeffrey Neubauer

These orbs **changed direction** when passing waikoloa town. The orbs were **very low in the sky**, clearly **below the clouds** during most of my personal experience, before **ascending into them** and disappearing on its trajectory toward the area between mauna kea and waimea... [satellite?] Possibly the **dumbest cover up explanation I have ever heard**. This is not what space junk looks like when falling through our atmosphere. ... space junk doesn't **continuously change direction** in mid air. The one time I did see space junk falling into earth atmosphere years ago; it looked like a large fireball. These **small, perfectly round, glowing white orbs** did not look even close to a fireball. They all stayed the same size, and the first 5 to 7 **never deviated from the V pattern**. Anyways, believe what you will, maybe one day that will change once you get a first hand experience.

.... I live in waikoloa hawaii and experienced these orbs up close and personal for over **a minute and a half**. I spent hours today writing a lengthy description on [Mufon.com](https://www.mufon.com) of what had to **be the coolest moment in my life**. These orbs had no trail behind them and they moved very slow across my neighbors house. You can check out my full description over on that website if you wish. The news tells us that space debris fell from the sky last night; which by all means is probably true, but what I witnessed last night was **100% not space debris**.... These orbs were under the clouds, not far away from me. Some also **accelerated and then slowed down**. One was **spinning** in a very tight circle for a reason I can't remotely understand. Have you ever seen space junk do that? I didn't think so.

You Gotta Watch This! What Just Happened Over Hawaii? Watch Now! 2020

- **Thirdphaseofmoon** // <https://youtu.be/i0vXK50GajQ>
- Steven Chiverton == looks like **a large partially cloaked craft** so all your seeing it the body lights and the flashing nav lights
- Kerylorbs Multidimensional == Meteors don't **randomly blink or move slowly in clusters** thru our atmosphere.
- Sandip Bhattacharjee == Clearly ..this is **a whole craft**.. triangular or may be boomerang shaped..
- Lali == that is **a giant craft**
- Shivercanada == First one looks like maybe a secret space program object that was scuttled. it really reminds me of the space shuttle disaster coming in. Since they described "smoke" it was either a meteor that broke up, a group of small meteors or the aforementioned
- paul rorick == Definitely **looks solid**
- Jersey Stotler == Doesn't look anything like a meteor shower to me looks more like **some kind of craft**
- Adam Rizzi == Plus starlink isn't like **hovering over your house**, its way up high

third

- Rafiki Gator == First five examples look like a very **silent hovering** medium sized “aircraft” shape, that has been retrofitted with **silent anti-gravity hover** similar to TR-3b. Lighting looks like it was **designed to attract attention**. Interesting !
- Mark Eaton == Meteors look like shooting stars when they come into our atmosphere. They don't hang around in groups. They move very fast, and all either burn up or hit the ground.
- Josh MacIntyre == ThTs right , that ain't no meteor.
- Dr Gunsmith == Absolutely this absolutely not Meteors or any other burn up
- Jason == Looks **like one big ship**.
- Mai Mariarti == OR, It's an exploded satellite. Low orbit says its a military spy satellite. Either got shot down, or more likely got hit by a micrometeorite and exploded into pieces, and them pieces are coming back home!

third

- TEX SUN -- How can anyone think the first video is a meteor shower when it has **a blinking light** on it, and it was descending, I wonder where it went??
- Galena L. Barron-Sacson == Meteors don't have blinking lights...
- gav hinds == They're not meteors either..I don't care what anyone says..
- Jonathan Rosario == Those don't look like meteor showers it's moving too slow to be that
- John rizzo == **one large shimmering transparent craft?**
- Josh MacIntyre == And they also burn up in the atmosphere with causes it to have a tail of some sort n this didn't
- MrJrsdts == Meteors does not travel that slow. Somebody knows what it is. It's reminds me of one of those solar planes with real long wings they could be doing a night flight. And they will be running off of batteries so they would be silent.
- Valerie Greene` == I can't believe people would actually think these are meteors. **They don't fly in a clump in unison.**

third

- Venomvip == They do not look like a meteor shower. Maybe debris, but in the videos they **don't look like there falling**. Looks like **a big object**?
- Richard Allgood == Definitely some sort **of large ufo**...nice footage
- Domi393 == Remember what Corey Goode said about the size of the ships that they have in space? About 6 football fields and longer? Probably this was one of those, not a meteor shower ! The north-west side of Oahu is an interesting viewing point for these kind of navy flying machines. Good luck to find a viewing spot there, cause everything is non accesible, for obvious military reasons.
- Berkant Sokmen == It is **a one-piece object**.
- P T == Those lights **in the shape of a plane** is a new quite supersonic plane built by Lockheed Martin and yes the plane can not be heard.
- wesley Cornelius == Exactly these are **too low to be starlink**...i dont understand how people can mix the two
- Lauren Middleton == Looks like **it's spinning**.. like a green diamond... Spinning

third

- K Bell == How could anyone think it's a meteor shower, ***why are ignorant people always in a rush to expose their stupidity.***
- Mags k == Space debris,?, that's **a massive solid object with lights**, you'd have to be **crazy not to see that**, oh my lord
- Ramona Ringer == Some kind of craft with, **some kind of stealth tech** except for the lights
- shawn collins == Look on my channel. Filmed same thing 3 yrs ago Oxnard. **Someone needs to explain this crap. Same thing all over world.** NO ONE IS EXPLAINING.! Can't someone send recon to this when it happens? Drone or copter to record it. Come on already...
- 2:00 == that thing looks **really similar boomerang shape** to the video before this, the one where it was possibly over an airfield and cut out just before it would have flown over the camera? But wasn't that a totally different country? I may be wrong but it looks like the side on angle of that sighting to me.
- Fish Tales == it looks like **a large Triangular craft**, definitely not Meteorites cause they come down separately. This is worrying i hope all these sightings doesn't mean an invasion, makes me wonder.

MYSTERIOUS LIGHTS MAUI OCT 24 2020

13,252 views / • Oct 25, 2020 // <https://youtu.be/E9NDhDgZsek>

- Cluster of Mysterious Lights Observed Across Maui
- Details: <https://bit.ly/3olpqIZ> Maui Now received multiple reports of a cluster of mysterious lights seen from various parts of the island from Kahului in Central Maui to Pukalani, Olowalu and Nāpili on the West side. Video sent to us across our various media platforms showed a streak of 15-20 twinkling lights slowly pass **overhead from the north**, traveling southeast just after 10 p.m. on Saturday, Oct. 24. 2020.
- -----
- Eliot == First of all, this is NOT, Elon Musk's Starlink, Starlink, is somewhere on the eastern hemisphere of the planet, no where, near Hawaii, so we can count that out, and **this is definitely a mothership**, over the skies of Hawaii, probably not the first, and most likely not the last UFO sighting for Hawaii!

MYSTERIOUS LIGHTS MAUI P. 2

- Platinum Punk 444 == I saw the same on Oahu. **It was MASSIVE**. I posted the video on my channel. Dude, i am still blown away
- MetafusionandSound1 == Looks like a Mother Ship???
- Platinum Punk 444 == It was a Mothership. We were shocked. All our neighbors saw it too.
- Jeffrey Morter== We saw this last night from our patio in Honolulu. Our neighborhood is right across Nimitz from the airport. We see air traffic fly over all the time, and the size of this was **too large to be an aircraft** at an altitude high enough to be silent to us. My wife insists the shape had a **silhouette**, but *I think it was the light of each piece of debris illuminating the smoke of all the other pieces*. Whatever it was, it was an incredible sight to witness in person!..... [repy] I would say that the entire cluster was about the size of my hand. Slightly narrower, but from the leading light to the last trailing was about the length of my hand.

Jeo reply 3

- A satellite reentry fireball swarm, this time. The perception of a structured object with a sharp silhouette and glowing windows is a repeatable, common reaction to a night-time fireball swarm which moves nearly horizontally. Examples: a meteor disintegrating or several aircraft with landing lights. The compelling proof of this possible explanation has been provided by satellite reentries that sometimes serendipitously create the same visual stimulus -- and the same witness misinterpretation -- all around the world, as shown here: http://www.jamesoberg.com/1963_kiev-fireball-swarm-rev-B.pdf
-
- Spectacular example -- France, Nov 1990,
- http://satobs.org/seesat_ref/Oberg/901105-French_wave.pdf

https://www.reddit.com/r/UF0/comments/ji36rn/mass_ufo_sighting_hawaii_not_starlink_satellites/

- [i_r_jt](#) == It seems people would much rather debunk than believe. I personally don't see this as a satellite re-entry.. some steady lights holding shape whilst others blink in a timed fashion.. **If the gov don't want us to know, they provide us with a debunk or 2 and the sceptics do the rest for them :/**
- MysticalMindTribe == Witnesses are coming forward saying it was passing overhead **at a low altitude**... Quote from witness Gretchen Watson after seeing video - "This same object passed over our coffee farm in Holualoa (Kona side) at 10pm on 10/24/2020. It was heading toward Mt. Hualalai to the Hilo side of the island. It flew **very low over us**, very quiet and left a **white haze/tail** for several minutes after passing over."
- Cammyboom == What gets me is the clear white smoke left very low. No one heard a crash? **Did it not contact the ground?**
- Meandodin == except this had substance. granted, it may have been a meteor swarm, but **this changed course**, from **heading north to heading east**. plus the arc of movement did not seem stratospheric.

https://www.reddit.com/r/UFOs/comments/jhzifq/major_sighting_over_hawaii_last_night_if_you_look/

- Bagpipemegababe == It seemed like **a lot of individual lights**, all very bright but one looked like a plane blinking light, while the others remained solid.... They were all moving at the same speed but in different brightness, with one in particular looking very much like a plane blinking light. But **there was a LOT of lights**. I thought it was a meteor breaking up, but the one flashing light made me question it. It covered a large area of the sky.
- Debacol == that clearer vid shows something sort of strange: pay attention from 0:55-1:00. You'll notice the flightpath of the objects **cuts in towards the house and doesnt follow a predictable path**. If its the satellite debris, I'd like an explanation of why **they ALL** cut in like that.
- AnySIMPERS == IMO this is the exact same craft. Also the color of the sky gives us a better perspective on the size of it which is fuc4ing huge. Looking up a breaking up meteor entry it doesn't really look anything like this or move at this speed.

Christine Wiggins I saw this come right over my friend and I in haiku last night. It took the shape of a plane/jet, but was formed of stars and made no sound. It was the craziest thing I've ever seen. 🤯

October 25, 2020 09:40am

Julie Chon I saw it last night after 10 pm laying in bed saw cluster of light huge but no loud sound it was very big heading to east bound I when through right above my house I did not took took photos but it had long tale of smoke following behind it

October 25, 2020 07:56am

Tina Moss

Sunday, October 25, 2020 8:09 AM

At first I saw what looked like fireworks twinkling around the palm trees but there was no noise ... I couldn't make it out, but saw that it was getting closer and said WHAT IS THAT? ... we all ran onto the grass and looked up with our mouths hanging open in amazement... It looked like a phantom plane with a pattern of lights that remained the same and slowly moved across the sky right in front of and above us

Derek W Tiller

Sunday, October 25, 2020 7:18 AM

We saw it also on Kauai. It made no sound, all the lights were going the same speed and none of them burned out. Lost sight of it behind clouds. It was later seen on Oahu. by a friend of a friend. p
Pretty darn weird!

Lts over Hawaii = mother ship [oct 24, 2020]

- https://www.reddit.com/r/UFOs/comments/jhzifq/major_sighting_over_hawaii_last_night_if_you_look/
- Tlx421 == It's just an imperial star destroyer.
- Minx8970 == That's what it looked like to me to lol. **Looks like a giant ship** :P
- Qwertyroffle == It's **keeping its shape completely**, unlike the example you provided where pieces are obviously separating and burning up. Also, many of the lights in the original video are **strobing at a constant speed**.
- Lionslappy == Yes I saw it it is **a solid object**, and it was slowing down... i saw it first hand, **it was flying lower** and had a contrail behind it. .. it was a solid object, but why would a stealth plane have so many lights
- Summed41 == If you look closely **you can see the outline of a triangle**. Also, meteors/space debris moves **much faster** and leaves a trail. Very suspicious!!!
- Qwertyroffle == Also, the same lights are strobing in a repetitive manner. It doesn't seem like anything that's burning up in the atmosphere, such as a meteor. In a couple of the videos, **you can hear people mentioning that it's making a sound**.
- Thepolishpen == These triangles **have to be human-made**.

<https://youtu.be/U4JKW-7Q074>

- Jane Namu -- UFO over Honolulu. Husband thinks it was a swarm of meteors. Many lights in formation. Looked like a giant plane, silent... It really look like a plane!! **The space between the lights formed like a plane** but its very quiet!! It even has a trail... We don't know what it was but it was quite scary and amazing to look at!
- Pemble Ohana -- We just watched this happen. What the ?????? Everyone tripping, I got video but yours is better
- Grant Bowen == Saw it on Kauai, it was crazy! Like nothing I've ever seen! Was way **too big to be a plane**. I don't think it could be a meteor, seems like Space X is the only explanation but even that isn't likely?
- Kenneth McClain == I'm here on Oahu too...I think it was a meteor that broke apart into smaller pieces when entering the atmosphere.

<https://youtu.be/HISB7q8cj3Y>

- Milton Oshima == Yeah!, there were three of us and we saw that thing too!! We were night fishing just outside of Keehi Lagoon on boat and about 10:00pm we saw this bunch of lights flying across the sky **from South to North** direction. Made no sound, **almost transparent like**, very huge!... compared to a regular plane. To me it was **shaped like a plane but almost 4 times bigger**. It left a broad, straight **trail of gas or vapor** behind as it passed. But just no sound! Just eerie to see something so huge transparent looking and making no sound.
- kevin sutavee == [see full page]
- Rusdin Sobell == I saw it overhead it looked more like a plane and **it wasn't that high up in the sky**
- Kered Rellit == We saw it on Kauai also! It was really weird. There's no way it was a meteor shower.
- Brian Smith == Lmfao What!? That is not starlink dude that is **a cluster of orbs or maybe a solid single object with lights on it** everything is drifting together at a steady pace. Great catch and find! Camera shows white lights but im curious as to what color in person bc ive witnessed orange orbs and i recently saw a black mass dropping white orbs out of it

Sutavee...

I saw it too in mililani, flew **right over my head** in the parking lot... but I didn't see any trail of any sort... just traveled **slow, low and silent**.. mind-blown I saw it.. super low.. silent.. yeah almost shape of a plane, but no plane, no sound.. slow and steady

hi jim. at my hand; at arm's length, it would have been about between 6,7 or 8 hands of space in the sky, all of it moved together, **it almost looked like there was an object, but there was no "object" there were a lot of lights**.. the lights looked powered, but not like any lights I've seen before. I've seen a report with video of what looks like debris coming into the atmosphere, it has flame trails. so, for what I saw; (I did not take video) I will say, what I saw looked nothing like the video with the flame trails, yes, that video looks like debris coming into earth, its on fire it looks like a completely different event from what I/we saw, there are several other videos out there with just the lights moving slowly through the sky, no flames... it was traveling slowly across the sky, it passed **very lowly overhead**, in mililani.. if that were debris, I estimate it would be **150' above the deck**, but lets say I was off by a factor of 10 and it was actually 1500', then it would have been even larger, and **traveling very close to the ground through densely populated areas**..

Crowd in HYSTERICs as they Witness a MASSIVE Craft in the Sky Above Hawaii - "WHAT IS THAT THING?"

4.8K 133 SHARE SAVE ...

<https://youtu.be/0vESLDhVFVM>

Todd C == I've always wondered what's up with the lights. I'm sure if they wanted they could shut them all off and **not be seen**. Why have them flicker to make odd shapes? I don't get it. **Something tells me they are doing this to confuse us** and make us question what we are seeing.

FEARMANGLER == Looks like a debris field and are basically spinning rocks that are hot and are **held in place by magnetic connection**, lots of pics coming out.

Janie Langley == I live on Kauai, **saw a Golden Orb 10-23-2020 over then in front of neighbor's house. Golden light morphed into Silver light covering entirely neighbor's house. Lasted 8-10 minutes.**

MOTHERSHIP 2 of 2

- Zachary Faias == I live in Hawaii and saw that last night! It was not a meteor breaking up and it was traveling along the sky. Super crazy!... No sound. **It looked pretty low, and was just gliding through the sky.** That's why I don't think it was a meteor shower because of the way it was traveling. [reply] From my point of view it was it the sky right next to me. It looked **as big as a commercial jet.** No sound, I was trying to find an outline but I was driving while I saw at couldn't really see an outline.
- Anlushac11 == The Hawaiian lights are intriguing, **At certain points it seems almost like you can see a shape or structure behind the lights.**
- Micci == I have no alternative answer for this one! I can't even imagine anything we or other countries have that size. But I don't know what concerns me more...foreign or alien!
- Brett Werner == Let's not call it a "mothership". They conditioned us from watching stupid Star Trek and Star Wars and other junk. Let's just call it **a giant government craft.** Screw them.
- Lyreh Life == This is becoming such a frequent occurrence and I am so glad I have lived long enough to see it become fairly common. We live in wonderful and fascinating times.

gretchen watson-kabei == This same object passed over our coffee farm in Holualoa (Kona side) at 10pm on 10/24/2020. It was heading toward Mt. Hualalai to the Hilo side of the island. **It flew very low over us**, very quiet and left **a white haze/tail** for several minutes after passing over.

How to Meet an Extraterrestrial == No streaks of burning debris. **Lights appear attached to a structure.**

Mass sighting

JANEE DISTURBED == Seriously? You're gonna use literal personal footage sent to MrMBB333, and claim someone said it's old chinese craft/rocket burning up coming back down through the atmosphere (according to your description)? We happen to know the people who captured this (at exactly 8p their time). And on the same night, about 730p onward, **many others across the U.S. seen the exact same things!** Us included. From NJ, SE Ohio, Texas, Arizona, Utah, California, and Hawaii. All different timezones, different states. Ftr, any kind of space debris or any crafts/rocket debris **DOES NOT fly at a steady pace across the skies. They fall while on fire.** This particular video was of **ONE LARGE CRAFT** with many lights, and a few other smaller ones following around it's back. This was NOT CHINESE ROCKET DEBRIS or any other debris for that matter.

Christina Gomez == We are obligated to put the 'Mundane' theory doing the rounds, but as we said, it doesn't mean we agree with it. We are digging for reports of those **who say they have pictures of a structured craft** presently.

Mass sighting – excellent give-and-take

- Shania Bravo == I saw it from Mokuleia! I reported it to the UFO report center as “stars in the shape of an airplane” kind of like the one guy said in the video. They told me I probably just saw Musk’s starlinks but it did NOT look like satellites! I COMPLETELY believe it’s a UFO.
- Cg == There are some who are hypothesizing with documentation that it was just an old Chinese rocket body burning up, yet several witnesses have come forward stating that it was **a low altitude sighting**.
- richard Coughlan == Asteroids/meteors **dont hover** in the sky like this! Lol

MYSTERY SOLVED: Cluster of Mysterious Lights Observed on Maui is an Old Rocket Booster

<https://youtu.be/OodCzJeuFvY>

- Jamie Holland Brown == How does a falling rocket booster **fly up a hill?** My dog woke me up to watch it go from down hill pass the Kona Airport then up over Hualalai. It looked like **transparent like glass with twinkling lights.**
- JTruth Be Told == oh please. Cut it out already. We've ALL woken up recently except for these Bsers
- Surreal Sculptures == Rocket boosters? **What are you kidding?** Why dont they just say they were fire flies? That is about as **outlandish as any explanation I can deliver.**

Object(s) sighted over Hawaii in last 24 hours : aliens (reddit.com)

- MiracleNinja777 == I have seen multiple reports, on various social media, of a **large object, or perhaps multiple objects**, being reported in the last 24 hours in Hawaii. I would like for you all to view these videos and report on what you think. Both of these videos were just posted. I am not a big fan of UFO videos but what strikes me about these is the **witnesses' reactions**.
- Mammoth-Man1 == Interesting. I feel like **we're on the cusp of some of this stuff being revealed in our lifetime**, intentionally or not. Going to change the world forever.
- EACommunityTeam == **Kinda looks like a plane with a bunch of lights on the bottom.**
- SVCalifornia301 = Looks like it is going **approximately the speed of a blimp**. Especially in the Twitter post, there is **a faint sound** of an prop engine early on. The other two videos don't have any obvious engine noises and should if they were capturing a blimp. **It looks quite low**. Interesting.
- Punkinhat == they mostly **stay cloaked**, emerge in and out.
- Thelakeshow1990 == It almost looks like a bunch of craft following an asteroid

Object[s].. P. 2

- Sea-Alternative5501 == Why do **these things always just appear to go floating past and then out of shot, there never seem to be any actions of an extraordinary nature**, no whizzing off at high speed, no erratic flight paths, just a selection of lights, moving at a similar speed to a blimp, drifting across the frame. Why aren't people chasing in cars ? **It's not moving very quickly is it.** If I saw this go past my house, I'd have the wife driving, and I'd be tracking it with a camera for as far as I could. Or maybe it is just a blimp ?

[New UFO sighting over Hawaii : conspiracy \(reddit.com\)](#)

- Zoobooloobooboop == it is so sad how far humanity is behind. **we are kept in the dark about so so so many things**.... aliens and exotic tech of course being one aspect of this.
- Evanmike == It sure looked **bigger than any rocket!**
- TradeExcellence == People are going to blame this on space junk. I've watched the video several times and it is **for sure a spaceship of some sort.** Human or not I have no idea

Lights seen on Maui hawaii : conspiracy (reddit.com)

- Islandguy220 == I was curious what you all think this is. Maui hawaii had some light show last night. UFO, Starlink, meteor, or military drones? The local news is saying it's likely military exercises. **There is twinkling and flashing seen but it also leaves a trail and one photo looks similar to a burning comet.** Thoughts?.... My friend that lives on the opposite island from me said they flew in form sometimes **blinking slowly.** He said they made no noise and he saw blue trails of smoke behind each one. He seemed to think it was some sort of air crafts.
- All8upinside == Wife and I agree **it looks like an Alien ship**, whatever it is it is wild and needs a proper explanation. Thanks for sharing.

October 24th Hawaii Sightings (Videos and Thoughts) : UFOs (reddit.com)

- PlanePrior1415 == What I am thinking, it **definitely has a triangular shape**, but, that could be the object breaking apart.
- Riflington == I'm not so sure. **Rocket body parts are not that big and would burn out fairly quickly**, even on a shallow trajectory. I've saw Mir and two other satellite re entries. Mir was a controlled re entry though and designed to come in **very shallow** and hit water, plus it was huge. The other two looked more like asteroids, slightly brighter, slighter slower. This display goes on for ages. People report a shape to the object too. It's frustratingly unclear as per usual.
- Pp1415 == I want to say its something at a high velocity, but the questions I have are like you, **the lights are the same throughout**. They arent appearing to dim or brighten indicting something on fire.
- There DOES appear to be **a triangularish shape**, and we know with the nimitz UFO video theres DEFINATELY. Activity that way.
- JusticeofMaat == **Definitely a major craft** sighting.

Lately many videos around the world of this thing flying : UFO (reddit.com)

- Zellerium == Thanks for the links! I don't know if I'd call it confirmed, although I think the reentry theory seems **more likely** overall. But the first video from the observatory doesn't really support it - the lights have much brighter trails, and there aren't as many of them. Of course the angle, lighting, exposure are much different, so hard to compare. The ground track looks like it'll be about 100 miles south of Hawaii at around the time of sighting, I guess its close enough. But it says it's the VENESAT-1 rocket body, which was a Long March 3B launched in 2008. **Kind of surprising to me that it tore up into so many pieces that stayed so close together.**
- Lionslappy == When I first saw it i though it was just a meteor shower breaking up in the sky. But the more closer I looked at it, **it looked like one solid object**. In my eyes it looked like **a plane that was painted black**. I could see a triangle of a tail. It was on a similar flight path that planes take when they land at the airport here. The lights on it made no sense and wouldnt have any practicality for any type of airplane. I saw one contrail or trail of smoke that was made behind it, it dissipated within 8 second. **My eyes could of just playing tricks on me, making the lights into a pattern.** So a rocket booster breaking up? A solar plane? My thought after see it, that it was a weird plane painted black. I wonder what the air traffic control saw on their radar?

UFO over Hawaii 10/24/2020

<http://www.abovetopsecret.com/forum/thread1274111/pg2>

- Ophiucus 13 == Some of the witnesses mentioned it is possible meteor shower. Others mentioned a invisible craft. You decide
- Baddogma == The one thing that puzzles me a bit about the space junk explanation is what appears to be **a flashing anti-collision light** at the ground side of the mass. It may be an exceptionally regular, pulsing burn... I guess... maybe?
- Frugal [nov 5] == Older, solid citizen, college educated in astronomy opinion: It looks like a flying cone shaped craft. I have seen meteorites, they come in **as a downward trajectory straight line**. A very fast motion. A person can see many colors as the meteorite burns up. It happens very fast in seconds, then it's over. I have seen Ufos three different times in my life. They move in unpredictable to physics motions, with no sound. Which will freak you out, and you know something is really odd going on. Those sightings can also be very brief in seconds.

Blue shift == Well, If I was going to argue the point, I'd say the lights in the configuration certainly seem to be **a lot more stable and long-lasting** than most of the space junk re-entries I've seen. Meteorites barely last a few seconds. But in the video, the bright specks seem to be **hanging in place** for quite a while. There is one speck at about 7 o'clock that seems to have a kind of trail behind it, but that's pretty much the only one. It seems like **it should be more chaotic and fast**. Just for the sake of argument. It could very well be more space junk flying in, except slow and regular, but I'm not quite sure how that can happen. Coming in **at a flat angle** to the viewer?

Jimo:

- With all the new excitement over the latest Hawaii UFO story, I guess folks have conveniently forgotten that the last major ‘flap’ in October with the ‘UFO mothership’ did really turn out to be a reentering satellite’s fireball swarm, just like the real scientists had tried to explain. Here’s the full evidence: <http://www.astronautix.com/data/hawaii-mothership-release.pdf>
- The critical ground observation on October 24 was made from Waikoloa Scenic Point on the big island, where the keen-eyed observer noticed the fireball swarm pass left-to-right directly across Polaris [the North Star], giving an elevation angle of 20 degrees. Since observers on Maui 100 mile away saw it passing directly overhead flying WSW to ENE, simple trigonometry gives an altitude of 40 miles, exactly the level that typical satellite fragments are brightest on their long shallow descent [and not at ‘airplane height’ as most witnesses insisted]. And that path was exactly the one pre-calculated for the demising satellite rocket. But that’s “yesterday’s UFO”, forget about it, and on to the next one before it, too, is rationally explained. Sigh – it’s a media pattern, try to catch on.

Astronomers Say Cluster of Mysterious Lights in Maui Sky was an Old Rocket Booster | Maui Now

- Monday, October 26, 2020 10:51 AM == Spent Rocket **parts that twinkle or blink, Then turn a 180 in formation** and then **another** 90 degree turn. Of course I don't know ,but don't feed a Santa Claus tale.
- **Tina Moss** [Sunday, October 25, 2020 8:09 AM] == At first I saw what looked like **fireworks twinkling around the palm trees** but there was no noise ... I couldn't make it out, but saw that it was getting closer and said WHAT IS THAT? ... we all ran onto the grass and looked up with our mouths hanging open in amazement... It looked like a phantom plane with a pattern of lights that remained the same and slowly moved across the sky right in front of and above us
- **Derek W Tiller** [Sunday, October 25, 2020 7:18 AM] == We saw it also on Kauai. It made no sound, **all the lights were going the same speed** and none of them burned out. Lost sight of it behind clouds. It was later seen on Oahu. by a friend of a friend. Pretty darn weird!

UFOMAN News - Scientists explain Hawaii UFOs dec 31 <https://youtu.be/ZruISROGsPQ>

- jim oberg == My report specifically addresses the Oct 24 10 PM event for which the satellite reentry scenario seems very strong...
- Aaron Nicolle == Jim.. I appreciate the math you mention. However the lights repeat themselves. **Like they are flashing**. Have a look at any legit re-entry video.. there you find that no single burn up of any materials constantly repeats. Also, the fragments do not disintegrate. I've shown this video 5 separate people with no story given. **None believe that this a a re-entry of space debris**. I always remain sceptical and I always appreciate evidence supported literature, **but re-entry is not the answer on this one**.
- jim oberg == [@Aaron Nicolle](#) == Please show them my report link, too. Do you agree it was forty miles up crossing Maui?

UFOMAN ZruISROGsPQ #2

- Claudio Lopes [jan 6] == **What about the blue one** couple of days ago in Hawaii again? **That reentry story won't fit.**
- Aaron Nicolle [jan 2] == Making scientists look like imposters. And morons.
- Jaaziel E Garcia Hernandez [jan 2] == Funny "scientific" explanation lol
- Aro == Are you serious? all this "explanations" just made up sh..t.
- T Kaw == Exactky. The cover ups are starting to get comical.
- Unknown Stranger == This is not debri from a sattelite
- jim oberg == My report specifically addresses the Oct 24 10 PM event....
- Unknown Stranger == [@jim oberg](#) Well if you say so, I just think It looks strange and behaving weird as something coming from space towards earth, its a strange path

Scientists explain strange lights in the sky

oct 26 <https://youtu.be/N4ImM3pPrI4>

- KHON2 NEWS == Did you happen to see the strange, bright lights Saturday night? You may have been one of many who thought it looked like a plane, a meteor shower, or something unexplainable. People on different islands reported seeing these lights in the sky on Saturday night shortly after 10 o'clock. We're told since it was traveling East, residents on the Big Island and Maui probably got a better view.
- Alex a Tkacsik [dec 6] = Ive seen smt similar 2 this in 2017 in ny
- Supun Dinushan [~Dec 6] == I saw it yesterday in sri lanka. Time between 6.20pm-6.40pm
- bootsy Williams == John O' Meara is lying and trying to cover up the truth. If his story was true, **why weren't the local residents notified??** Umm, his story doesn't quite add up. Also, **China and the FAA would have known hours or days before the debris would enter the atmosphere.** I think it's a COVER UP!!!!
- Jessica B == Of course their going to make something up to cover it up so no one starts freaking out. i deff believe it was a ufo and they even said that they can't be sure but they think it was the satellite re-entering the atmosphere.

- Freedom Family == hahahahahaha man thats the most stupid thing ive ever heard. Spaceships have been around for ever.
- Jason Socrathien == Um... excuse me!!! Since when do rocket boosters go into stable orbit? And... um... why are **the lights on this debris blinking**? I don't think fire does that!!! Guys???
- Andrew Johnson == It's come to point where **saying you are a scientist is saying that you're stupid**
- DeVoe Empire == Lmao one of the lights **was even blinking** on the ship
- Xav == Do they really think people r stupid **i bet there was someone with a weapon aiming at him** and shoots him if he doesn't lie
- Lou Rodriguez == YEAH WHATEVER ..every-time you guys try to tell us that its something else, it only makes it that much better for US NOT to believe your explanations. I am surprised that it was not a WEATHER BALLOON as ALWAYS!!! WE ARE NOT ALONE!!!!

<https://youtu.be/N4ImM3pPrI4>

- John Bhys == If that's a re-entry of a rocket booster then I'm 6 foot
- eye candy == **They think we're dumb**
- Tomás Cancelliere == come on, was it some **swamp gas** too? The new thing now is to blame ufo sightings on space debris
- Daughter of Venus == Bahahahahaha I can not believe what that dude just said! **What an idiot!** You all know some \$hit about to happen and you all lieing and saying **all these strange lights we're seeing all around the world are satellites and rockets!** Come on, if your going to lie **at least make it believable.**
- Scott Cozart == What a bunch of \$hit. **If something falls to earth** it leaves a streak. Like a falling star. **It dont just hover in the sky.** I quit school. And know better than this pile of \$hit lies. From a big science guy.
- Stanselb == Except **space debris leaves a long trail of light** even in daytime. Check the Columbia breakup footage

N4ImM3pPrI4

- Aaron Carr == She can't keep a straight face lol
- Rx Zabaleta == That guy with the dumb background **thinks we are as dumb as he is?**
- DivineJ == That is no weather balloon or re entering debris, whatever. Oh **I love the stupid explanations but that video clearly shows many lights on a slower moving ship.**
- Andrew waldon == Hmm.. very strange explanation they are giving. Not sure I believe them to be honest.
- jim oberg == Consider all the evidence please, and previous analogs....
- Andu Andy == It looked like a giant 757 all broken into smaller and larger balls
- Conspiracy of Truth! [jan 24[-- I'm not buying it. Whenever something like this happens, **officials always blame it on some explanation** that's easy for some people to believe. I'd like to know why it didn't have **any trails of light** following it if it was something coming through our atmosphere. Things that make you say Hmmm! Aloha, Kevin McCarthy.

N4ImM3pPrI4

- Jonathan Smith == Those are ufos **how they rockets from 12 years ago ??**
- Maggie Mejia == The liessssa you tell gov how do you sleep at night!
- Chapman AΩ == Rocket??? **We aren't stupid.**
- A P == Look up a reentry. Not even close.
- FATHER'S OF BASS == Lol **they really think that we're that dumb** huh just like the weather balloon story
- Alternate Reality == And the rocket **hovered for hours** lol.
- Coolyguy27 [jan 23] == These scientists don't believe in other life visiting this planet. So like before there was a solid object in the sky and you didn't need to be a scientist to see **this was a machine flying in plain sight**. Well 6 out of 6 scientist said it was something other than what it obviously was, And pretty much said **the people that actually saw this object were crazy and didn't see what they saw**. So if I were you? I would take what these scientist say with a grain of salt. They know as much as you and I do about UFO,s. So for them to discredit your sighting when they know nothing about UFO,s is an insult.

n41m

- Babaju Baako == Ok let's resumé this awkwardness: (Punchline: Now the scientists will explain what happened/because all people like Steven Greer and stuff **are soooo stupid**) -We have no evidence but we suspect..... -We did not have proof that..... -We did not find any of the debree and this brings the theory -blablabalbalbla And then the best of the best fun fact: Those so called "Allknowing Scientists" **aren't able to predict** major asteroids like the one that exploded over Russia and several other big chunks. They even admit it, many big beasts just passed earth under satellite level and they noticed nothing ! Now they wanna tell us they SUSPECT it is an used up chinese satellite that finally crashed and has ALTERED THE IMPACT CURVE, WHAT ??? Now space garbage is more intelligent than those clowns ! But this is just another theory. Totally unproven. But the one thing they know is THAT YOU ARE WRONG ! Dudes.....watch close encounters of the fifth kind. And then watch that clip again....you'll throw up.
- Keith Douglass [jan 27] == **the cover up is done over again** by the new generation . officials sit back and laugh at same old stories rediscovered by the new ignorant sheep. Keith Australia

n41m

- Michael - Project Manager == Ooh! "Scientists" have explained it. Okay! I'll believe that no problem **'cause I'm an idiot!**
- Prodigy == That scientist lady looked like me when I'm making up some bull\$hit story to trick my little sister lmao
- Roy Kable == **Debris that's been seen all over the world for years** and now in 2020/ 2021 are seen **even more like everywhere?** I respect scientists and experts but even they been wrong plenty of times. I understand the effort to try make some sense out of all this but I don't think that's **what people are seeing worldwide.**
- Wish Bone == Im no scientist but looking a footage its not a rocket re entering the atmosphere **are they serious** with this \$hit?
- Riff Man ==Man **they think we r idiots**
- xXBlade_51Xx Playz [jan 27] == They trying really hard to cover up the truth.. **PENTAGON I KNOW U GUYS ARE UP TO SOMETHING! JUST TELL US**

Scientists explain 8

- EyesToSee === Yeah, the "Expert" gave you a completely made up Theory, and people buy that? Ever seen a "shooting star"? This has "0" ZERO characteristics of anything he tried to sell you. These "Silent Crafts" are 100% real, and I've seen one on the "9th Island" in the desert of Vegas up close and personal. Silent, triangle, with dim lights on the bottom. And very ominous feeling they give off as lady who filmed it said. John O'meara **can go kick rocks with that nonsense.**
- J. T == I've seen **exactly this one night in Turkey, near Syria.** And then shiny light orbs flew around 4 meters above our heads and flew onto the sea, without making any sound. So yeah, a debris, my ass
- GHOSTEEL == That's terrifying but exciting. **Clearly an extraterrestrial airship, those lights show some of its size but you can tell that airship is huge.** Oahu might be one of their bases of intelligence, judging by the multiple phenomenons occurring there.
- DJ Koenig [apr 7] == The blurry pics look like possible space junk falling, but not the in-focus video. **The lights were all together on a structure.** I doubt an old rocket booster from 2008 **would still have 40 plus lights still on** brightly shining nor would a rocket booster have lights, **there's no need** to have them on a disposable fuel tank.

Scientists explain 9

- Ian Fitzgerald == A rocket get tf! Outta! Here it's a ufo! But I understand **if he explains the truth he'll probably be killed**.... Why believe these fools on here trying to describe what it is, lol of course thier simply not gonna tell the truth about what it is. A rocket my really! ? I **mean you can fool these people in here but not me** clown!
- David Burgess == Absolute rubbish! **That was a large craft, very similar to what was in the Star Trek series!**
- Herald Nones == **i saw that thing as just one piece** and explode then separate into mulitple pieces while it travel east. i was by diamond head at that time.... its like the 1st movie of transformers when they first entered the atmosphere.... its like the space shuttle columbia disaster, but at night and more a lot of debrees.
- Enden == Bull \$hit story **it's a craft**
- daddy c == This guy's lyin it's not a chinese rocket ship there's like 1 million plus objects in our orbit space junk falls all the time **it don't linger flashing in sky** it burns up fast nobody sees it

Scientists explain 10

- Efthymiadis [1/15/2021] == **jim oberg, a bot who thinks he can control people's minds** will soon get banned because more than 100 people have reported him
- jim oberg == You cannot ban the truth....
- Claire Doyle [jan 15] == **These people area so stupid** or would like us all to be stupid.... they are idiot's... they must be payed of to actually talk ado much \$hit. Infuriating so say the least.
- Red Step Stacker == [Remember] the TR 38. It was declassified in the 90s they built the first one in the 60s in there on version 10. Keeping it all mystical for the natives her. White man don't wanna lose his position on the island.
- Adam Be Beas == Space debris.....is that really what **the greatest minds** of the human race have to say.

Scientists explain 11

- The Unpopular Opinion [jan 28] == We need to start **eliminating** these "scientists. STOP LYING **WE ARE NOT STUPID!!** Where were the reentry burn trails?
- Hillie Boyy == A rocket booster dude **are u stupid?** And he supposed to be some scientist.
- Travis Gilmore == You mean to tell me they use our tax money and lie to us? I wonder how much BS is going to be in those declassified files in 180 days this really pissed american people off with the lies and bs like we're jumping the gun and just assuming.
- Red [jan 29] == People: omg! Ufos! **Scientists/Nasa: we can explain** please we can explain. It's a "CHINESE" rocket or maybe satellite \$hit falling from sky. People: yeah liars of course you can explain (lie). AND ONE DAY UFO WILL BE EXPOSED AND ALIEN WILL COME OUT AND THEN... Scientists/Nasa: we can explain please we can explain people listen that's not an alien, that's a "CHINESE" guy coming out from "CHINESE" spaceship.

Scientists explain 12

- Rui Xia [jan 30] == **Some "experts" and "scientists" on TV explaining UFOs are like they know the whole universe.** They know everything. Even an enlightened human being wouldn't say he/she knows everything in the universe. Sometimes, admit "I don't know" is the most powerful and wise thing. Human being is just one of the expressions of beautiful nature in the universe.
- Brett Clark [feb 2, 2021] == But of course! Makes total sense...wink wink... nahhhh I'm one that would be first to jump on the UAP/UFO boat BUT there are trail tails on some of the lights indicating it is some particles falling into the atmosphere.
- The Man With No Name [feb 4] == boosters, weather balloon, swamp gas, what will they think of next? Flight of geese who flew into the night sky with Christmas tree lights wrapped around their beaks? **They must really think people are dumb.**
- Eddie V [feb 5] == They are **laughing** at us.
- Fredy Araujo [Feb 5] == They want to us to believe it's alien...in reality they're showing us that project blue bean is about to start soon

Scientists explain 13

- TheDemonation13 [feb 12] == what a lie and cover up **that thing was almost hovering** n no burning like any space debris what a lie.
- memes :\ [feb 12] == cmon bruh they lying i think **that if it fell it wouldn't have floated in the air** it would've just fell right there.
- Toon Angel [feb 12] == Pure bull\$hit I've seen UFO's up close. close enough to know our planet do not have this type of technology their ships are silent anti gravity.
- E. R. [feb 13] == To John O'Meara - stop lying and remember: dont trust a person who hides their background on a zoom call
- Rosemary Mills [feb 16] == These reporters and scientists seem to smile and pat people on the head saying, oh, **what you see isn't really what you're seeing**. Makes sounds of astonishment sound foolish. No wonder people don't report sightings. Who wants to be publicly humiliated?

Scientists explain 14

- very caring [feb 19] == AAAAAAND.....if it lands on ppl...who TF cares. Humans are so dumb and delicate. **Theres no way to believe these explanations** with words such as "most likely". Did they find "debris"? Wheres THAT follow up "story".?? **THINK FOR YOURSELF** Hail SaTaN!
- sKeletonaRmyuNiversity 3 [feb 28] == Haha no one is believing your bull\$hit lies anymore. That was **not a damn rocket booster** making re-entry.
- Rosanne Roszetta [feb 15] == We are no longer listening to **stupid explanations....** The public know it was a UFO
- Evin Sleddervedder [feb 20] == These are not scientists **these are disgusting lying shills** that think your stupid.
- M D [feb 24] == Well... **why are there SO many. This isn't the only one.**
- warnutztheloserTV [feb 24] == **thats a mothership dam it** stop the BS.. good thing nobody got abducted
- Google User [mar 5] == Just because they have the title "scientist" they expect us people to believe.. Guess now we know who they **brainwashing** first.

Scientists explain 15

- Top Quark [feb 18, 2021] == At [0:56](#), you can see **they're connected**. Differently sized pieces would have different wind resistance and **would separate quickly**, but this thing stayed **exactly the same**. It doesn't really look **to be descending**, though the angle and distance could mess with that. I know they're at a higher elevation and I don't know the distance to the observers, but the Mona Kea pictures are during late daylight hours. The video looks to be pretty late, definitely no sunlight left. **That is one craft.**
- Jo == Thanks for the thoughtful response. These kinds of events really have a lot to teach us about UFO perceptions. Triangulation from widely separated observers place the phenomenon about forty miles up passing directly over Maui -- your comments on flight path angle are very perceptive. Here's my summary report with links to more detailed reports: <http://jamesoberg.com/ufo/fireball.pdf>
- FlapUjackUTv [mar 4] == yo this is where they fuc4ed up heavy first off the photos they showed us was of the day time occurrence secondly even if it entered our air space as something braking apart AIR FRICTION IS A THING so that mean depending on the weight of the item coming into said air space it would have been in way less of a formation then that secondly something like that over a public area is less likely to accrue unless they lose control of the satellite

Scientists explain 16

- Eugene Hill [feb 18, 2011] == **Ridiculous speculation** of a rocket reentering the atmosphere. **I am so sick of the cover-up** and the throw any excuse against the wall and whatever sticks is the lie to use. Also our scientific establishment, NASA are supposed to be bringing the people information to help the people to advance. Instead all they do is look for was to monetize the technology or build distrustful weapons. And to advance the elite of the world. This needs to stop, this pervasive approach to technology must stop so mankind can truly advance. **Rockets do not hover, they fall.** The debris from a reentry **falls to the ground, it does not stay stationary in the sky....**
- JO == Thanks for the thoughtful response. Were you an actual witness? These kinds of events really have a lot to teach us about UFO perceptions. Triangulation from widely separated observers places the phenomenon about forty miles up passing directly over Maui. Your comments on 'hovering' seem related to a typical very shallow flight path angle – and 'falling satellites' is a bad term, reentering objects =DO= follow a very gradual descent path, they don't "fall to the ground" like shot-down airplanes. Here's my summary report with links to more detailed reports: <http://jamesoberg.com/ufo/fireball.pdf>

Scientists explain 17

- jerry ajeon [mar 04] == Is this the best crisis actors and storyline they can come up with lol..mab it's something from the Antarctic those beings said they will require around this time the pope Obama orthodox priest buzz Aldrin R.I.P new about this give us more credit
- Joseph O'Donovan [feb 24] == **The worst explanation I have heard in a long time to explain a slow moving, large object, nigh on HOVERING in the sky.** No streams, no light trail, no debris - no brainer!
- Jo == In a recent comment below, I posted a link to my recent report [I'm a retired 'rocket scientist'] where I argued that it was a fireball swarm about forty miles high crossing Maui west-to-east at about 12,000 mph on a slowly descending path, typical of a satellite reentry, with any fragments hitting the ocean a thousand miles to the east. I'd appreciate any specific factual/logical flaws you suggest I need to fix.

Scientists explain 18

- Thomas Morano [feb 28] == The scientists were told to hush hush and coverup **or theyll mysteriously disappear**
- jim oberg == Your brain seems to have mysteriously disappeared -- the evidence is overwhelming this was a satellite reentry fireball swarm.
- Thomas Morano === yea. A satellite **a mile long.many witnesses say it covered the stars**....air force pilot disturbed by it. suckefa like you believe everything you here.its. a ashame.
- Jo == Please tell me more about the air force pilot disturbed by it, I hadn't heard that detail.
- Thomas Morano == itss on youtube...he was supposed to be a tuff guy. believeve what u want. i.sounds convincing to me..witnesses said it was dimensional and 1 craft. kurt russell reported it. [jo – ref to Phoenix lights]
- JO: Thanks! No question it was an awesome apparition, there have been at least several dozen like it since the Space Age began, with the same basic cause. I'm a retired 'rocket scientist' and have been having fun digging into this particular kind of 'UFO' report – and I don't have any opinion for/against other types of UFO stories, but these, I think I'm getting them figured out.

Scientists explain 19

crypto zoology [mar 06] == Lol the explanations these guys give are **often so silly**. They know people are trained to except experts lol. They also know they are full of it most of the time. Anyone well read and know about flares to balloons know this often cannot be the answer. The public feels more comfortable with this answer. The truth though **that for over ten thousand years flying chariots been seen in the skies**. Millions of sightings from presidents to early emperors. Thousands of films before world cgi that are clear showing you a giant disk in sky. I witnessed a ufo crash and they covered it up but it was not a meteor. Looked like some sort of craft. And bright redish orange solid shape with one flashing light of some sort. They also took body bags to ambulance army to men in black people like guys were there. Diving odd hazmat looking suits. Watched whole thing in the dark with few others by boat. and was hushed up like roswell. They talk about roswell shag harbor and others .Ottawa has one to and was a real crash of some sort ufo not a meteor or balloon . Speed was very fast. They exist no doubt. Who they are or what they want. Or secret humans doing it no matter what they exist

- xXx Punk Rock xXx [may 16] Bull\$hit. The way they moved was unnatural.

Scientists explain 20

- Natrelacoustix [mar 12] == So it's all guess work... But says Mr Expert "it's a Chinese booster rocket from 2008, that was part of a Venezuelan satellite..." **That's some very precise \$hit for a bit of a guess.**
- Sonia Michelle [march 06] == She says it's debris that broke apart in the atmosphere but **they don't have the debris?** Then how do they know it's debris? It didn't look like it was breaking up & **what about the lights?** It looked **very controlled and deliberately paced** unlike what you'd **expect to see** if it was free falling debris.
- Fenesor [mar 07] == if it was an old thing why not show the blueprints or sum?
- Curtis Benjamin Israel [March 13] == One thing is CERTAIN: These people "explaining" this, is LYING!!!
- JimO == It's certain that you need to understand the basic principles of spaceflight better. The internet scammers count on poorly-informed easily-misled target audiences. But there are on-line remedies available. Do you want to see the full explanations of why this really WAS a reentering satellite?
- Turnitaround [may 16] == So the booster just stood still in the sky for hours? Heard of gravity much?

Scientists explain 21 [ref to Oregon fireball swarm]

<https://youtu.be/N4ImM3pPrI4>

- inder m [may 7] == I saw it also 2 days before **in Vancouver**
- Anna Vanvliet [may 8] == I live in **waldport Oregon** and saw it. Was the strangest longest thing I've ever seen in the sky.
- Vivek Chadha == Scientists think **that people is stupid.**
- Thomas Barber == I'm fairly sure there would be **a tail of fire** right? They wouldn't be **just circular lights.**
- Courtney Cortez == Bruh they will say anythiiiing lol. If you believe that then I got some ocean front property in Idaho i wanna sell.
- J Ma [may 8] == So the "boosters" are **falling sideways** for quite a bit? I saw some lights here in Texas too and they were moving in a zigzag pattern. They said it could've been satellites... riiiiight
- FinznFowl82 [may 9] == They can come up with some \$hit

Mass UFO Sighting in Hawaii October 24, 2020

“There is good out there” 84 views Nov 20, 2020

- <https://youtu.be/Uk1IQ3bmWHI>
- Nov 20, 2020 == A very interesting UFO sighting in Hawaii on October 24, 2020. A large formation of lights, **possibly one single craft**, was seen by many people on multiple islands. The attempted "explanation" that it was the debris of an old rocket breaking up in atmosphere **is a laughable joke**. Objects re-entering the atmosphere are moving at extremely high speeds. And **burn up very quickly**. Think of a shooting star. These lights were moving at a **relatively low speed and were visible for multiple minutes**. It should be. **obvious to anyone who knows anything about astronomy that this is not space debris**

UFO sighting in Honolulu 10/24/20

Mar 5, 2021 <https://youtu.be/OC4tPdhcTNA>

Travel Adventures With Nick and Jane

- The UFO seen by many over the Hawaiian Islands on Saturday October 24, 2020. This thing flew right over the city of Honolulu. Government & news officials say it was a Chinese rocket booster re-entering the atmosphere. But a lot of locals think otherwise. **It was obviously steering itself a fallen rocket booster couldn't do that right?**
- mavi 777 [mar 5] == Awesome

ufo Location Maui, Hawaii USA Date 25 October 2020

https://youtu.be/DGrEeB_PUdA

- Eric limon -- [April 10, 2021] **Resembles some descriptions of the Hudson Valley boomerang in my opinion.**

Social Scene: Strange lights

<https://youtu.be/R3PN9pqR-lo>

- ohio stin == If the cover story was true, I'm sure **they would have warned you in advance**. Nobody saw it coming, because it was ALIENS!
- Shawn Ehrlich [Jan 2, 2021] == i personally seen it and **it wasn't that high** in the sky like there video. ima tell you first hand **this was no reentry** of any kind. it was **a lot lower to the ground** so much that i could see the orbs glowing the front orb looked like a full moon glowing from the inside. the smaller lights that was in the middle of the y shape that it took form too looked like shooting stars.. i put this in my ipad pro and did some filtering and **definitely was no rocket booster** why are they so quick to say it's that and not anything else. coverup ? yes of course be a free thinker that \$hit was like nothing i've ever seen before in my life and i've seen satellites in the early morning skies i've seen misfired rockets from vanderburg air force base in cali ive seen meteors big and small **nothing is even comparable to that**.
- DJ Koenig [Apr 5] == The blurry pics look like possible space junk falling, but not the in-focus video. **The lights were all together on a structure**. I doubt an old rocket booster from 2008 would still have ~40 plus lights **still on brightly shining** nor would a rocket booster have lights, there's no need to have them on a disposable fuel tank.

Space Vehicles Arrive -- But Whose? By Jim Oberg

Special to space.com : 09:44 am ET 05 November 1999

http://www.space.com/sciencefiction/phenomena/spacejunk_991105.html

[Space Vehicles Arrive -- But Whose \(jamesoberg.com\)](http://www.jamesoberg.com)

- [E]ven after decades of space operations, many people remain in the dark about what space vehicles look like when they come back.
- Satellite orbits slowly decay into near-circular paths, skimming the upper atmosphere. Moving at 8,000 meters per second (~17,000 m.p.h.), they begin to flame at an altitude of 110 kilometers (~70 miles), falling to 80-100 kilometers (~50-60 miles) after five to ten minutes. [descent rate 2 to 4 km per minute].
- At that point, maximum heating and deceleration cause them to break up into fragments, which continue their gradual descent for another five or ten minutes. Surviving fragments slow to 3,000 meters per second (~6,700 miles per hour) at a height of about 50 kilometers (~31 miles), where the flames die out [descent rate 4 to 8 km per minute].

To: MUFON UFO Journal (Dennis Stacy)

August 17, 1992

The May 1992 UFO Journal carried a translation of Jean Sider's report on the November 5, 1990 UFO wave in France. Sider said the wave could be "the greatest UFO flap in France since the Autumn of 1954", as well as "one of the largest possible UFO flaps in French history."

The French space agency CNES, through its UFO study group SEPRA, explained the sightings as being caused by the atmospheric entry of a Soviet rocket (a Proton third stage). Despite Sider's argumentation against this solution, my own further research has confirmed it.

The Soviet satellite Gorizont-23 was launched by a Proton booster on November 3, 1990 (not as per Sider on October 21), into a temporary low parking orbit. The payload was injected toward geosynchronous orbit half an hour later, while the spent third stage fell from orbit within 48 hours (See for a comparable case the similar Proton [Zond] entry over Tennessee in 1968 described by Klass in UFOs-Explained).

Attached is a ground track map of the booster in the hour before it decayed and burned up. This is based on orbital elements released by the US Space Command. The trajectory took the rocket body right across the northern horizon of France. The exact point of entry could not be tracked by US Space Command sensors (outside of its radar coverage) and only an approximate point on the orbital path can be computed in advance. The west-to-east motion of the fireball in the northern skies of France is completely consistent with eyewitness accounts, connected with the predicted entry.

My 1992 letter to MUFON arguing satellite reentry explanation of French UFO Flap - James Oberg

Sider's rebuttals to the Proton entry explanation are easily refuted:

1) An astrophysicist at the Lyons Observatory "ruled out" the entry hypothesis. Well, on what grounds, and what does this person know about entries? The citation is a French TV report, not a follow-up interview that a competent investigator should have done.

2) An astronomer near Grenoble was on duty at the time and should have seen an entry. Astronomers don't usually stand on platforms scanning the skies with their eyes, they operate complex equipment from control rooms. Besides, the scattered clouds could easily have blocked view of the fireball low on the northern horizon. The absence of the astronomer's report is no evidence for the absence of a bright entry fireball. The much later sighting appears to be independent.

3) US Space Command said the impact was expected over the North Atlantic at 2:35 PM. I have been unable to confirm this published report (new officials in the press office are uncooperative), but entries can occur within 1 or 2 orbits of the expected time, and the US Space Command times are usually given as Mountain Standard (GMT -7). The authenticity and relevance of this datum is obscure.

4) The object was seen below the clouds. If this means that the object passed along the northern horizon below higher clouds, above it in elevation angle from the ground, this is consistent with the entry. If it means that the sky was totally overcast and the object was seen with clouds as background, that's something else. The former interpretation is consistent with the Proton entry fireball.

5) A structured object was perceived by witnesses. This is a classic fireball phenomenon, where bright lights (individual fragments) are mentally integrated by witnesses into illuminated sections

of a single craft. The estimates of "enormous size" are worthless since only angular size is directly perceivable. This is basic eyewitness interview technique and standards.

6) The object's motion was irregular. Some witnesses did report "alternating slow and rapid speeds" or a "vertical ascent", but these perceptual errors are known to occur with undisputed fireballs and are a characteristic of sudden celestial perceptions.

7) Many witnesses were "qualified observers". This is a discredited argumentation gimmick which falsely implies that pilots or engineers or students are more likely to recognize natural celestial apparitions. Experience has shown the opposite: they are more easily cued into unconsciously adding in interpretations from their specialties.

8) Further investigation of this was done in the US. My notorious reputation as a "space/rocket UFO debunker" (and genuine expert) seems to have disqualified me from being approached, but other real experts would have told Sider the same thing: the evidence was overwhelming that the sightings were caused by a space entry.

It is distressing that by now, half a century into the "modern UFO phenomenon", leading UFO groups such as Sider's and MUFON cannot recognize such overt UFOs as rocket entries. This French case is one example. Another pitiful throwback was shown in a recent Gribble column on the 1967 "crescent UFO wave" over southern Russia, a wave which my research (published in the MUFON Journal in 1982!) showed conclusively to have been caused by Soviet orbital weapons entry tests. Nobody has argued with that solid conclusion: MUFON's editorial position appears instead to just pretend it was never published. This is not a responsible, scientific approach to the issue.

- JimO: This suggested explanation does absolutely seem to defy common sense. There's no way I would have imagined anybody could make such a major misinterpretation. Then I began to find case after case where particular types of satellite reentries [large booster stages with lots of high-temp-resistant components] were accompanied with consistent eyewitness misinterpretations. A dozen major cases from all over the world are in the appendix of my long report on the Oct 24 Hawaii 'mother ship' event. I've posted a link earlier on this site and you should be able to find it.
- Laura Curry [3/24/2021] == If you're **an awakened soul** and see this it's literally the matrix breaking. Yes the sky we've seen for years has not been real at times in certain areas. Yes the sky is more mysterious than we know. Yes God can send messages in the clouds as well as angels have been seen peaking out behind clouds then ducking back in. Aliens are real and have been among us for centuries. That is nothing new lol. But we will become more aware. If you have managed to make it this far I'd say you have an open mind. So here's my whole point to this comment. Galactic Federation of Light. You're protected and safe. Just stay true to you and SPEAK your truth.
- Laura Curry -- I'm 23 graduated in 2015 and yes I graduated very satisfied with a 3.8. In my experience with school I had already required the everyday math and science I use today in elementary. We were taking pre algebra in 6th grade. By high school I was learning useless calculus. Something I should have had to learn in college. We should be teaching our kids how to figure out who they are and their individual passions and gifts. After they learn the gen ed it should be a emotion coaching and life coaching experience up until the age of 18. To help them get a grip on what kind of imprint they want to make on the world. But maybe that's too woke for earth still

Curry 2 of 3

- JimO == Laura, do you have any problems with the rocket explanation? Any questions about my report on why I am persuaded it really was a satellite reentry?
- Laura Curry = yea it's **an obvious lie**
- JimO == Can you do better, like explain what evidence makes you decide that?
- Laura Curry = hmmm I'm just gonna throw out some words. If you want the truth you have to research yourself. HAARP, Galactic Federation of Light, MK ultra and the great conjunction. Change is here. Stay sleep or wake up either way I'm ascending to heaven on earth. You guys can choose the aliens.
- Laura Curry = Satellite reentry but the debris **stay collected together** moving in **an intelligent** manner and **seen on different sides of the country** but it's a satellite coming back on to earth? ... the **debris stay falling collected together? Moving side to side, switching directions and in simpler words moving intelligently** and without the laws of physics. Jim oberg you are a sleeping soul. This matrix is over. You have to decide if you can think for yourself or if you just accept what you are told. Either way rapture is here and you should focus on self. Goodbye jim. Have a great life.
- Laura Curry == the fact that **they paid these two to say it's a rocket**. we are not alone people. Aliens and angels are in the sky fighting and working with us to take our planet back from the Illuminati/Kabal/New World Order. It's all the same group of people. Help them by staying true to what feels right within self and treating each other with kindness and consideration. Awakening energies to you all. the New Gaia is here.

Curry 3 of 3

Jo = Yes, that's how reentering satellites that break up have been observed to travel since the dawn of the space age. You really need to catch up.

Laura Curry = **AND CHANGE DiReCTiOn but still stay in formation**? You're literally so sleep it's entirely hard to remain respectful of you. Where is your brain? Where you never taught how it works? Why are you just okay with accepting what you are told? Why don't you question? Goodbye Jim. No one cares. hardly anyone but you even believes this. You're not gonna change me mind as I am a freethinker. This is why my generation truly scared the boomers.

jim oberg == Any questions about my report on why I am persuaded it really was a satellite reentry?

aura Curry == no jim none of us have questions because you seem to be the only one believing this funky ass story.

jo: @Laura Curry -- "You're not gonna change me mind as I am a freethinker." -- Just think about how that makes you look in this discussion. A brain armored against contrary arguments doesn't seem 'free' to me.

Lc:; Jim please honey can you go away. I am a freethinker because I have a brain of my own. Because I don't accept what I am told. I analyze it and form my own conclusions I am free because I refuse to let fears hold me back in life. I am free because I have the knowledge of self and the knowledge that the power lays within the people not the cabal . Namaste sheepleton your time will come to wake up to your truth and power.
